## A Tradition of Higher Standards

For more than a century, Bryant® has delivered on the promise of providing superior quality, reliability, value and comfort to a nation of satisfied homeowners. Our company-wide dedication to doing whatever it takes to earn your trust has motivated us to continuously develop products that advance the capabilities of home comfort systems. And, that's why we're excited to offer the Evolution™ Zone Control.

The Bryant Evolution™ Zoning System is the industry's most user friendly system you can buy. It offers an unparalleled range of comfort control in up to eight separate zones in your home from one convenient and easy-to-use wall-mounted source. Installed by your trusted local Bryant dealer and backed by the best name in the business, this product helps deliver the comprehensive whole-home control you and your family deserve.

## Zoned Comfort and Efficiency with Benefits of Evolution™

Dividing your home into zones is the best way to ensure the very highest levels of comfort and energy efficiency. Now, you can take those benefits several steps further when you include the Evolution™ Zone Control. A remarkable upgrade from the ordinary thermostat, this special interface becomes the focal point of a Bryant Evolution™ Zoning System when included with Bryant variable speed equipment and any Bryant central air conditioner or heat pump.

The Evolution Zone Control allows you to take charge of temperature, humidity, dehumidification, ventilation, indoor air quality and individual zone airflow in your home from one centrally located user interface. At the same time, you'll be amazed at how truly easy it is to use. Designed with the largest backlit temperature display in the industry, simple push-button controls and intuitive programming with on-screen instructional prompts, this interface re-defines the term, "user-friendly."

While many people associate humidity issues with outdoor comfort, many don't realize how vitally important humidity control is to indoor comfort as well. The Evolution Zone Control offers precise and programmable humidity control as a part of a Bryant Perfect Humidity™ system. This system can monitor and adjust your home's humidity level even when the system isn't actively cooling or heating. As a result, you can save money by achieving your desired comfort at higher settings in the summer and lower settings in the winter.

# Control in a New Zone

## Warranty

To the original owner, the Bryant Evolution™ Zone Control is covered by a 10-year parts limited warranty.\* Ask your Bryant dealer about optional warranties, which include labor.

\*Warranty period is 5-years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at [bryant.com](http://bryant.com) for complete details.

## Performance

## Up to Eight Zones

The Evolution® System is the perfect choice for zoning applications. This system monitors airflow and automatically makes adjustments to ensure each zone receives the correct temperature and air circulation. The system can be configured for up to eight zones.

- Zone 1
- Zone 2
- Zone 3
- Zone 4
- Zone 5
- Zone 6
- Zone 7
- Zone 8

# The Efficiency of Evolution™ Zoning

Evolution™ Zone Control

Smart Sensor

Remote Room Sensor

- 1 **ZONED COMFORT AND EFFICIENCY**  
Zoning systems make the most of your heating and cooling system by directing conditioned air where AND when it is needed the most so you're not spending money heating or cooling unused rooms.
- 2 **CUSTOMIZED ZONE NAMES**  
Create zone names - like "Kitchen," "Family Room," "Den," etc. - that help you easily reference comfort levels and make changes to the correct zones.
- 3 **CUSTOMIZED AIR CIRCULATION**  
Our patented fan control allows you to set different fan speeds for each zone and for each time period, giving you ultimate flexibility for air circulation.
- 4 **CUSTOMIZABLE, 7-DAY COMFORT SCHEDULE**  
Create a totally customized comfort schedule for each day of the week for each zone in your home. Or, you can keep it simple by creating weekly and weekend schedules, whichever works best for you.
- 5 **REMOTE ROOM MONITORING**  
Smart Sensors or Remote Room Sensors monitor individual zone temperatures and give you the freedom to adjust the temperature setting for that particular zone.
