

# Evaporator Coil with Puron® Refrigerant

A-COIL MODEL CAPVU

*Preferred*™  
SERIES

# Ensure Maximum Efficiency

## North America's Comfort Source Since 1904

When your family needs year-round comfort from one value-packed system, it's good to know you've put your trust in Bryant®. Bryant has been North America's leading source for home comfort since 1904. We've built a solid reputation by delivering on our promise of comfort, reliability and value. Today, as consumer demand for value and quality for the money continues to rise, Bryant responds with products like our Preferred™ Series evaporator coils.

A Bryant Preferred Series evaporator coil helps your heat pump or air conditioner offer the high efficiency ratings you expect. Designed, built and backed by the most reliable source for comfort and installed by

your trusted local Bryant dealer, a Bryant Preferred Series evaporator coil is an excellent choice for environmentally sound, efficient comfort you can trust.

## The Perfect Match for Your System

A Bryant Preferred™ Series evaporator coil is a great fit for your Bryant air conditioner or heat pump because it comes from the same dedicated development team that has made Bryant the most trusted brand in the industry. It's designed to match both technically and physically to optimize the performance of

your air conditioner or heat pump system. And because it includes a factory installed TXV to precisely control refrigerant flow, you should always have the best combination of comfort and energy efficiency as well as the reliability that comes with optimized system performance.

## Enhanced Indoor Air Quality

The temperature of the air in your home is only one component to your overall comfort. You also deserve enhanced indoor air quality. That's the benefit of choosing a Bryant evaporator coil. Each of our evaporator coils is mounted on a high-tech composite base pan

that doesn't rust and includes an integrated sloped design for optimum drainage. By minimizing moisture build-up, this base pan virtually eliminates a potential source for mold and bacteria growth.

# Energy from Your Bryant® System

## Warranty

To the original owner, the Bryant model CAPVU evaporator coil is covered by a 10-year parts limited warranty upon timely registration of your new equipment.\* Ask your Bryant dealer about optional extended warranties, which may include labor.

\* Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate at [bryant.com](http://bryant.com) for complete details.

## Performance

## Environmentally Sound Puron®

The Model CAPVP and Model CAPVU use environmentally sound Puron® refrigerant. That's an important consideration because Freon®- 22\*, the refrigerant most commonly used in evaporator coils, is gradually being phased out of existence due to concern over the Earth's ozone layer. Bryant successfully introduced products with

Puron refrigerant in 1996, and those products are now the most reliable in our entire portfolio. By choosing the Model CAPVP or CAPVU with Puron now, you are helping preserve the ozone layer while selecting a product known for its lasting reliability.

\* The registered owner of Freon is E.I. DuPont de Nemour & Co.

## Indoor Comfort Made Reliable

### 1 ENVIRONMENTALLY SOUND, ENERGY-EFFICIENT

The Model CAPVP and Model CAPVU coils are designed for use with Puron® refrigerant to provide years of environmentally sound, trouble-free performance.

### 2 ENHANCED COMFORT

Our Thermostatic Expansion Valve (TXV) ensures proper refrigerant flow during fluctuating pressures and conditions for top reliability and energy-efficient operation.

### 3 DURABILITY AND DRAINAGE

The base pan is made of a high-tech, corrosion-free composite material. Integrated sloped drainage helps reduce buildup of mold, bacteria and other airborne pollutants.
